

INGRID CHAT

Ask Ingrid anything. Get exact answers.

Ingrid Chat is a private business assistant — like a public chat tool, but built specifically for your Spire accounting data, every Ingrid application, and every document you've uploaded. Ask in plain English, get exact answers with the numbers, generate a report, or take an action — all without leaving the conversation. **Your data stays yours.**

English

Just ask
Plain language in, exact numbers out

Always on

24/7
Your private assistant never sleeps

RBAC

Permission-aware
Same security model as the rest of Ingrid

No

Public exposure
Your data never trains public AI

Three reasons it's not just ChatGPT.

PRIVATE AI

1
Private & Secure

Your conversations and data run on a private, dedicated platform — never used to train public AI, never visible to the world.

Trains public AI	Never
Dedicated instance	Yes
Public exposure	Zero
Enterprise security	Same as core

2
Knows Your Business

Connected to every Ingrid app and live Spire data — plus every document you've uploaded. Knows your customers, vendors, and history.

Lives across	All Ingrid apps
Spire dataset	Read live
Uploaded docs	Searchable
Custom solutions	Included

3
Reports & Takes Action

Don't just get answers — get reports, exports, and one-click actions. Every conversation can become a PDF, an approval, or an entry in Spire.

Report style	Numbers + trends
One-click export	PDF / Excel
Approve in chat	Yes
Set alerts	Inline

WHY IT MATTERS

A chat tool you trust built for your business.

You already love how easy public chat tools are. The problem: they don't know your business — and you can't safely give them your data. Ingrid Chat solves both. It's your own private assistant, anchored to your Spire data, every Ingrid app, and every document you upload. Ask "what's the YTD spend on coffee?" and get the exact answer with the context — and a downloadable report.

Why teams love it

- ✓ **Private platform**
Your data never trains public AI, never appears in Google, never leaves your control.
- ✓ **Line-item granular**
Get the exact figure, the breakdown by department, the trend vs. last year — not an estimate.
- ✓ **Action-oriented**
Don't just answer — act. Approve expenses, attach documents, update records, set alerts — from the conversation.
- ✓ **Permission-aware**
Same RBAC as Spire. Confidential numbers stay confidential — users only ask about data they're allowed to see.
- ✓ **Report-style answers**
Every query can become a PDF or Excel export with one click — formatted, contextual, ready to share.
- ✓ **Mobile-friendly**
Same Chat, anywhere. Phone, tablet, desktop — your business assistant goes wherever your team does.

Ready to talk to your data?

Watch Ingrid Chat answer "what's our YTD spend by department?" in seconds and generate the PDF report in one click.
