

THE INGRID PLATFORM

Ask Ingrid. Never enter data again.

Ingrid is the AI-powered platform that lives on top of your Spire accounting. Talk to your data, organize every document in seconds, and keep working even if Spire is offline. **Three platform foundations on the front. Why Spire users choose Ingrid on the back.**

Near-perfect

AI extraction
98%+ field accuracy across every format

Always

Available
Apps stay live when Spire goes offline

No

Manual entry
From inbox or camera, all the way to Spire

Three foundations. One platform.

FOUNDATIONS

1

Ingrid Chat

Ask plain-English questions about your Spire data and get exact, numbered answers — not just a chart.

Source	Live Spire + Ingrid
Permissions	RBAC aware
Data privacy	Private platform
Export	PDF / Excel

2

Document Management

Drag, drop, done. Ingrid reads every document, links it to the right Spire record, and makes it findable forever.

Auto-tag	Yes
Linked to Spire	10 entities
Search	Natural language
Audit trail	Immutable

3

Disaster Recovery

If your Spire system goes down, your Ingrid apps keep running. Auto-sync when the server comes back.

Offline mode	Built in
Local cache	Secure
Reconnect sync	Automatic
Data lost	Zero

WHY IT MATTERS

Your business doesn't stop when Spire does.

Power outage. Server crash. Internet down. Most accounting systems grind to a halt. Ingrid is engineered differently. Your apps keep working, your data stays safe, and the moment your Spire server is back online, everything syncs automatically.

Why Spire users choose Ingrid

- ✓ **Built for Spire**
Native, bi-directional integration. Smart field discovery — no manual mapping or consultants.
- ✓ **Enterprise-grade security**
Built on SOC 2 Type II-certified infrastructure (Cloudflare). AES-256 at rest, TLS 1.3 in transit.
- ✓ **Permission-aware AI**
Chat & Documents respect every Spire role and rule. Brenda only sees what Brenda should.
- ✓ **Cryptographic audit trail**
Append-only, tamper-evident logging of every action. Compliance peace of mind, by default.
- ✓ **Configured in plain English**
"Only allow managers to see YTD sales." Done. No coding, no consultants, no waiting.
- ✓ **Resilient by design**
Offline-tolerant operation isn't an add-on. It's baked into every Ingrid app you run.
